

Universal Swivel & Compound Miter Vise

- For use on all Marvel 8® and 81® vertical bandsaws.
- Uses all existing vise clamping hardware.
- Vises swivel from 90° to 45° left and right.
- Vises can be clamped at any angle from 90° to 45°.
- Angle markings every 5°.
- Angles easily changed with only an Allen wrench.
- Face plates slide for close gripping of work near blade.
- Allows cutting compound angles.
- Vises easily grip tapered parts.
- Miter or straight vise plate faces can be positioned near blade or side of machine table.
- Face plates can be drilled and tapped for special fixturing.
